

# PARENTING TWEENS

*with*  
**Bonnie Harris, Parent Educator**

**BI-WEEKLY STARTING WEDNESDAY, OCTOBER 7  
12-1 PM VIA ZOOM**

**This is a support and learning group for parents of children going through the developmental shift between the tween and the teen years of 10 to 14 years old. This is a critically important time for parents who also must allow a developmental shift in themselves. Parents must grow with their children and shift their expectations in order to meet the new needs and demands of the teen years, not to mention the changing demands of Covid-19 and what that means for your child's schooling.**

**Join parent educator, Bonnie Harris for this bi-weekly group via Zoom. This program is free while virtual.**

**The group is for Monadnock area families, but out-of-state participants should email [info@rivercenter.us](mailto:info@rivercenter.us) for more information. Register only for the first date you will attend.**

**For more info or to register: [rivercenter.us](http://rivercenter.us) | **RSVP** |**

*Our programs are open to all in the Eastern Monadnock area | This is not a school-sponsored event*
